

Purchase terms:

- Shows are purchased for use for one season, whether it is competitive or non-competitive. The music may not be used beyond the term unless purchased again.
- Music files are provided electronically and directly from Box Six through a password-protected personalized webpage after payment/PO is received. The log in page is up for the entire season for use through the purchase term.

Regional Exclusivity:

- Box Six shows come with regional exclusivity covered by event. Before final approval can be made for a show purchase, Box Six needs the circuits, local independent shows (please provide show names), BOA events, and out of state events that the band will attend to confirm availability of the show.
- For large national circuits, exclusivity is covered by individual event. For local circuits, exclusivity is granted for all events and classes within the circuit.
- Any changes to circuits/competitions after show purchase must be approved by Box Six prior to registering for the event to avoid an exclusivity conflict.

What's Included:

- Box Six Marching Band shows offer full or reduced wind instrumentation or the option to customize the instrumentation based on the needs of your group.
- PDF files of winds + percussion parts and scores, mp3 recordings, sampler files, and count sheets are included in the purchase.
- For full details on the above items, see image on the show page.
